

ABOUT SPINDELX

BUILT ON **ENGINEERING.** DRIVEN BY PASSION.

SpindelX was founded in Mysore, Karnataka, by a core team of passionate mechanical and electronics engineers. With a strong background in R&D and product development across medical devices, automotive, and electronics, we understand the exacting standards required for mission-critical parts. We built SpindelX to bridge the gap between design engineering and sheet metal manufacturing, running a state-of-the-art facility built on strict digital process control.

OUR COMPETENCY

Our core competency lies in translating complex engineering designs into flawless physical products. With our deep background in product development, we provide expert DFM (Design for Manufacturability) support to ensure your parts are optimized for cost, quality, and scale.

Engineering Precision.
Manufacturing Excellence.
