

QUALITY CONTROLS

ZERO TOLERANCE QUALITY

**1. INCOMING MATERIAL INSPECTION**

Rigorous verification of all incoming raw materials against mill certificates and heat numbers.

**2. FIRST PIECE APPROVAL**

Comprehensive dimensional and visual inspection of the first article before authorizing batch production.

**3. IN-PROCESS INSPECTION**

Continuous quality gates at laser cutting, CNC bending, and assembly stages to ensure zero drift.

**4. FINAL DIMENSIONAL CHECK**

Complete measurement and validation against original CAD drawings prior to packaging.

**MATERIAL TRACEABILITY**

100% trace from raw material to finished goods. Heat numbers and Mill Test Reports are permanently linked to every job.

**FIRST-OFF INSPECTION**

Zero assumptions. First completed part is fully measured and signed off against CAD before any batch run.

Engineering Precision.
Manufacturing Excellence.
